

Test première simulation

Laché en Australie

Amaël Dupaix

5/12/2021

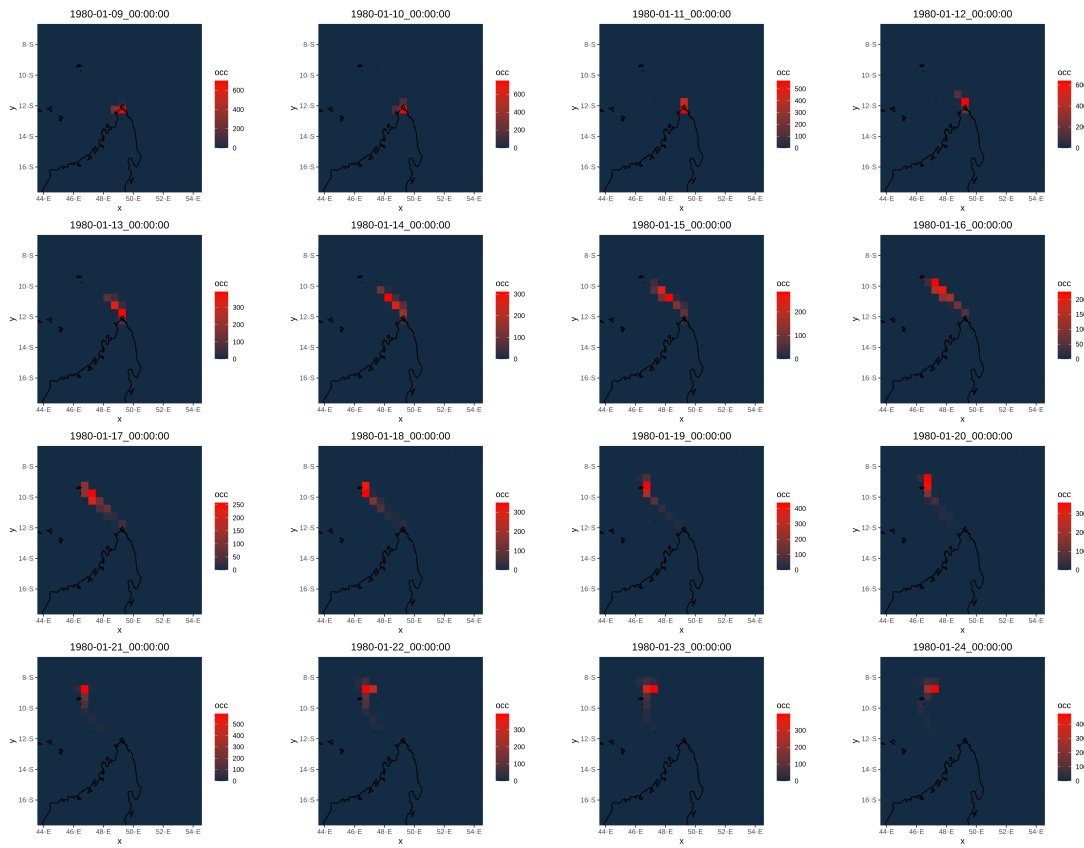

Figure 1: Results of the first simulation. Saving frequency in Ichthyop: once a day. 16 first days represented. Grid resolution: 0.5°

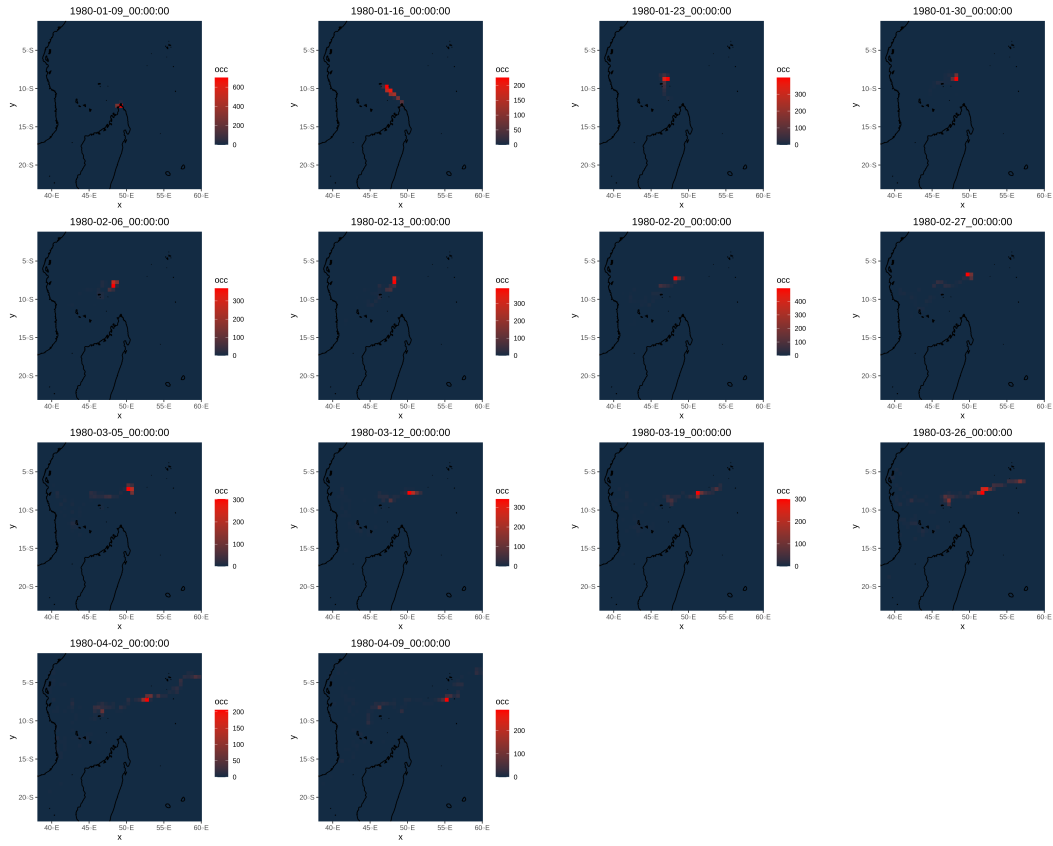

Figure 2: Results of the first simulation. Saving frequency in Ichthyop: once every week. 14 first weeks represented. Grid resolution: 0.5°

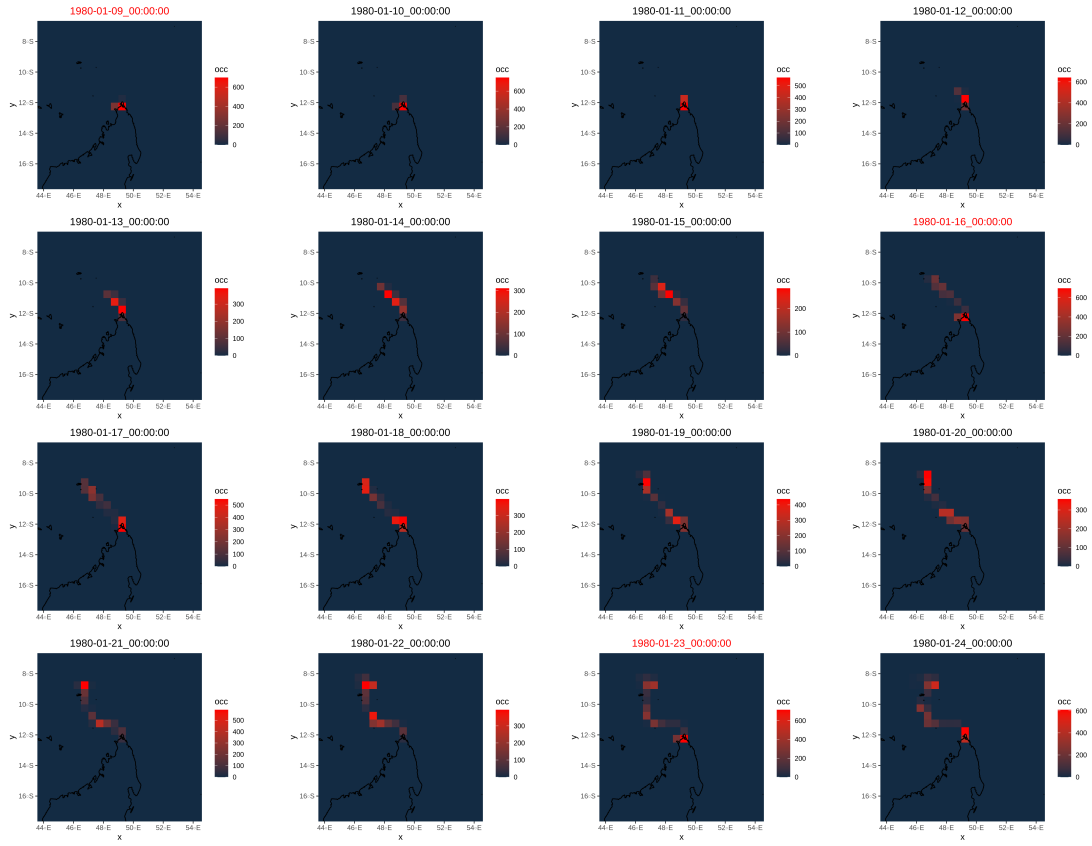

Figure 3: Results of the all the simulations, during the first 16 days. Release frequency: 1 week. Saving frequency in Ichthyop: once a day. Grid resolution: 0.5°

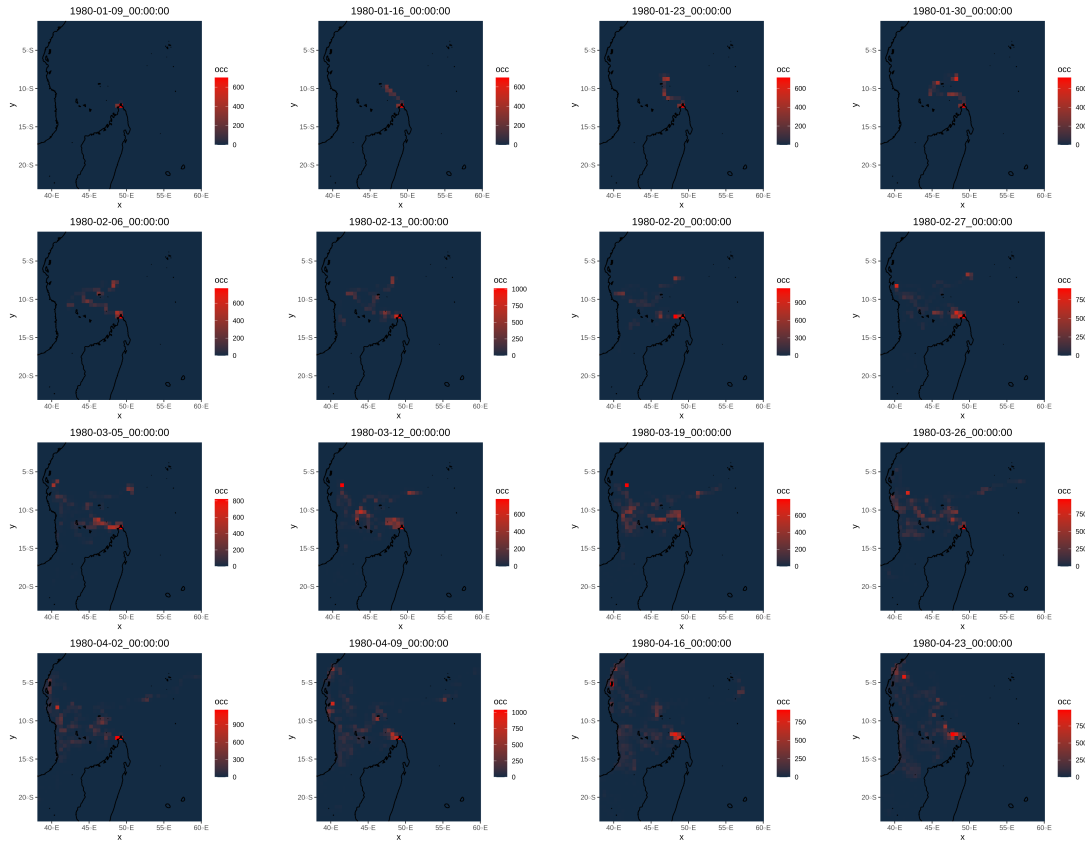

Figure 4: Results of the all the simulations, during the first 16 weeks. Release frequency: 1 week. Saving frequency in Ichthyop: once a week. Grid resolution: 0.5°
